PETITION FOR
RECONSIDERATION OR
CORRECTION OF CLERICAL
ERROR

SO. CAROLINA
COMMISSION
2004 AUG -3 PM
PROCESSED

The South Carolina State Budget and Control Board respectfully petitions the Public Service Commission for reconsideration of its Order No. 2004-349 upon the following grounds. The Board also respectfully requests the Commission to correct a clerical error in the Order.

In its Commission Directive of June 2, 2004, the Commission decided and ordered, among other things, the following:

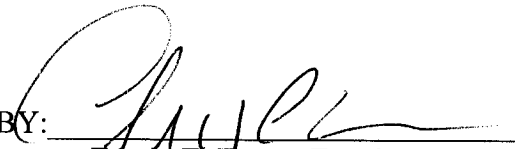

With regard to the skid, the Commission finds that there is insufficient evidence in the record to support a 50-50 split of the \$382,495 cost of the skid. The record does not allow the Commission to determine what portion of the total cost of the skid is to be allocated to Chem Nuclear Systems. Lacking this supporting evidence, the Commission has no choice but to deny its inclusion as a cost.

The Order Identifying Allowable Costs dated July 23, 2004, and served on the Board July 26, 2004, entered a finding and conclusion which differed from the Commission's directive set out above and instead adopted the Staff's proposal which allowed costs based on the relationship of revenues from the project attributed to transportation and disposal.

Therefore, the Board respectfully requests that the Commission amend or correct Order No. 2004-349 to conform to the Commission's determination and directive which denied inclusion of the cost of the skid.
